SITUATION

VÉSENAZ 137

Between nature and village

Overlooking the village of Vézenaz, this new residence is ideally situated at a crossroads between the village commodities and surrounding nature. It's possible to enjoy pleasant walks or bike rides in the close-by rural hamlet of St-Maurice.

The Pallenterie riding school is within walking distance for the benefit of horseback riding aficionados. Rouelbeau sports centre is less than a kilometre away and offers the following infrastructures:

- 3 football fields, one of which is synthetic
- 5 tennis courts
- Pétanque pitches
- Beach volleyball court
- 100 m running track
- Urban training area
- Kids playground
- Restaurant and parking

The holiday and recreational spirit is completed with the renowned beach park "La Savonnière", one of the most pleasant beaches of the canton with its large wooded park and easy parking.

The commune has four public schools and three kindergartens. Private schools are also easily accessible (Saint-Louis College and Notre-Dame du Lac International Institute).

As for public transport, there is a well-served bus stop within 100 metres and the commune benefits from the noctambus lines A, B, E and G.

Finally, the Collonge-Bellerive commune is known for its favourable tax climate and its enviable quality of life.

LOCATION

VÉSENAZ 137

PROJECT VÉSENAZ 137

Choose your dream home among the six different apartments:

attic apartment with access to the rooftop and unobstructed view of the lake,
ground floor apartment with spacious terraces and private gardens.

You will find what you are looking for, whether a spacious 4-room apartment, majestic 5-room
loft with rooftop or a family home with 4 bedrooms.

The residence is entirely enclosed and preserved from motorised vehicles. Access to the underground garage and guest parking places is located outside of the secure zone. A lit-up pedestrian path leads to the building entrance.

The residence was conceived by renowned architects RIS+Partenaires. It certainly possesses their signature design, brightness and eco-friendly touch (HPE construction).

VÉSENAZ 137 MODERNITY

This development is striving for excellence and aims to provide a residence with an outstanding quality of life in a sought-after location.

Everything has been designed to accommodate your wishes and to offer you exceptional homes.

BENEFITS

VÉSENAZ 137

“les appartements sauront plaire par leur esthétique et leur luminosité”

The residence possesses high-end features and you will be charmed by its aesthetics. You will be given the possibility to choose your finishes and personalise your living space.

The emphasis is on the outdoor with substantial terraces and well-orientated balconies, as well as elegant landscaping for increased intimacy. Large windows allow an easy transition between the interior and exterior. On the rooftop there is a second equipped kitchen, or meals with family and friends on the rooftop terrace. Windows are equipped with motor-operated blinds as well as anti-theft devices for ground-floor apartments.

The facades were aesthetically and tastefully designed. Their dual tone provides a touch of elegance. This was achieved

thanks to the integration of punctual rebeton elements on the balconies and the rooftop access.

The view from the balconies and terraces is enhanced by the use of wood on the under sides and floors, adding warmth. This element is repeated for the entrance cladding and bike sheds.

Generous budgets allow you to personalise the interior to suit your taste. In addition, the top-floor apartments will be equipped with two kitchens and floor to ceiling doors.

The apartments come with two car parks and a cellar in the basement. A spare parking spot and three motorbikes slots underground, plus two visitors parking by the entrance are also provided.
